EDUCATION

National University of Singapore

2023 - 2027

*B.Comp. in Computer Science
with minor in Mathematics*

- Recipient of Science & Technology Undergraduate Scholarship
- GPA: 4.57/5.0 (*Highest Distinction*)
- Selected Coursework:

Principles and Practices of Program Analysis
Programming Language Implementation
Fundamentals of Logic in Computer Science

Formal Specification and Design Techniques
Compiler Design
Logic for Proofs and Programs

RESEARCH EXPERIENCE

TSS Group, National University of Singapore

Aug 2026 - Present

Research Intern

Singapore

- Research on agentic program verification. Use AI-agents to automate and reduce the manual effort involved in formal verification, and to ensure the trustworthiness of AI-generated programs.

HKUPLG, The University of Hong Kong

July 2026 - Aug 2026

Research Assistant

Hong Kong

- Worked on foundational meta-theory of environment-based iso-recursive subtyping. Resolve the extensibility issue of the substitution-based model.

PLSE Lab, National University of Singapore

Jan 2026 - Mar 2026

Research Assistant

Singapore

- Worked on an extension over Hoare Logic enabling simultaneous reasoning about program correctness and incorrectness; implemented the logic system in Rust.

PLI Lab, National University of Singapore

Jan 2025 - Dec 2025

Research Assistant

Singapore

- Worked on the principles of design and implementation of programming languages. Explored expression-continuation-based interpretation model and implemented *Mini-Mu* in Haskell.
- Selected to present at SG PL Summit 2025 as the only undergraduate presentation in the program; received the Bronze Medal at the ICFP 2025 SRC.

Source Academy, National University of Singapore

Aug 2024 - Nov 2025

Researcher & Software Engineer

Singapore

- Added support for *Pie* to Source Academy, a teaching platform widely used at the School of Computing. Built a web toolkit for interpreting, debugging, and visualizing programs. Awarded the *Best Project Prize* at *26th STePS*.

TEACHING EXPERIENCE

School of Computing, National University of Singapore

Aug 2024 - May 2026

Undergraduate Teaching Assistant

Singapore

- Conducted weekly tutorials, graded assignments, and provided feedback, with evaluations exceeding department averages.

- *CS1231S – Discrete Structures* (24/25 SEM 1)
- *CS2040S – Data Structures and Algorithms* (24/25 SEM 2, 25/26 SEM 2)

New Oriental Education & Technology Group

Mar 2023 - Jun 2023

*Teaching Assistant**Tianjin, China*

- Supervised high school students studying mathematics and physics across multiple curricula. Led a class of about 10 students and tracked attendance and homework progress.

AWARDS

- Outstanding Computing Project Prize, *NUS School of Computing*, 2026
- Bronze Medal at ICFP Student Research Competition (Undergraduate Category), *ACM*, 2025
- Best Project Award at the 26th STePS, *NUS School of Computing*, 2024
- Science and Technology Scholarship, *NUS - Ministry of Education*, 2023
